

Date:19/07/2023

Name: Shashikumar Reddy

Steps:

Create a helper class and assign the users for various scenarios and call with the trigger.

The screenshot displays the Salesforce Lightning interface for viewing two lead records. The top record is for 'Mr. first-userstest' (Lead ID: 00Q2t000009LdCIEAK), owned by 'user1 approver'. The bottom record is for 'Mr. secondtest' (Lead ID: 00Q2t000009LdCIEAK), owned by 'user3 approver'. Both records show a 'Details' tab with fields for Name, Company, Title, Lead Source, Industry, Annual Revenue, Phone, Mobile, Fax, Email, Website, Lead Status, Rating, and No. of Employees. The 'Related' section on the right for both leads indicates 'We found no potential duplicates of this Lead.' and 'Campaign History (0)'. The 'Mr. secondtest' record also shows a 'Status' bar with options: 'Open - Not Contacted', 'Working - Contacted', 'Closed - Not Converted', and 'Converted', along with a 'Mark Status as Complete' button.

**Lead: Mr. first-userstest**

Field	Value
